PRESIDENT TAKES A LENGTHY WALK

BY ASSOCIATED PRESS. Washington, July 18.—President Wilson took a short walk through the business section of the city this morning and attended to some business at his bank. His appearance, following his recent slight illness attracted much interest. He gave up his usual Saturday morning game of golf and re-mained in bed late. Apparently he had entirely recoivered from his indigestion. He planned to see no call-

Quiet Prevails In Prairie Creek Mining District

BY ASSOCIATED PRESS. Fort Smith, Ark., July 18 .- Quiet prevailed during last night and early loday in the Prairie Creek Mining district where yesterday a clash occurred between several hundred striking miners and their sympathizers and mine guards, resulting in the rout of the guards and the destruction of property estimated to be worth about \$200,000. Lon Norris, sheriff of Sebastin county said today reports that two nonunion miners had been killed in yesterday's rioting were unfounded. Ten men whom the authorities a Hartford allege are: union miners were arrested today on the charge of inciting a rioting in connection with the destruction of the mining properties yesterday. Subpeenaes have also been issued for twenty more.

SHERIFF AND POSSE GUARD MINE PROPERTY

Bellaire, Ohio, July 18 .- Sheriff Jno. H. Anderson, and fifty deputies were busy last night and early today guarding mining properties on rumors that Industrial Workers of the World had threatened to blow them up. No arrests were made.

The opinion was expressed here today that Sheriff Anderson would have difficulty in following the advice of Gov. Cox and swearing in 300 deputies. Many citizens have already declared

It is with intense gratification that I have watch ed the expression of the public mind on a matter of so much importance. When I was named chairman and decided to accept the honor imposed upon me, my desire was to obtain a ful and free and absolutely uninfluenced vote on the recall. I felt that the matter should be settled speedily, and cast about for a method which would be beyond criticism and at the same time answer the requirements. At that expectations. There are many incidents of surpassing interest which the big incoming mail has registered, both pathetic and ludicrous. The main point which it has prought out the main point. the results have been far beyond my which it has prought out however, is that there is tremendous interest in the matter, shown by the fact that so many hundreds, uninfluenced personal requests, and of their own free will, have put themselves on rec

Says That Only One Side of the Matter Was Published and That He Had Offered Information For \$1,500.

Pensacola, Fla., July 18, 1914.

There are always two sides to every issue touching the recovery of, city property you absolutely gave but one side of the matter and the aspersion: cast agains' me were entirely unwar ranted by the facts and had The Jour al published all the facts relating to proposed contract the article would have been shorn of all its apparent craftiness.

This same question was brough before the old council by other parties and was considered and approved the finance committee and the mayo when it was proposed to pay twent; five hundred dollars for the inform ion which I have agreed to furnish for fifteen hundred dollars, but fo reasons best known to the members the council when it came before that ody it was quietly put to sleep, It is amount from the article that some people think the city does own great deal of property of which is

s not now possessed. If the city does own it, it seems me it makes no difference whether the present claimants are rich or poor, so far as the city's rights are concerned It is very apparent also that it would be much better for the present claimants of the property the record title to which is in the city to have the titles cleared than for them to remain n their present status, and that featre was uppermost in my mind when took the matter up with the com-

I deny most emphatically that it was the intention of the parties to the contract to rob any poor man of his nome or take anything from the rich tempt any such proceeding. The intention of the writer and of the commissioners was to clear up these louded titles on a basis equitable to the city and to the claimants of the property. I know what my own intentions were, as a matter of course, and I know those of the commissioners from numerous consultations with

hem regarding the matter. The statements in the article "that nundreds of homes could be subject ed to the conditions of the ordinance' and that "practically every piece of property in the city could be affected ov it," were statements greatly exaggerated and has needlessly frightned many people regarding title to their properties. As a matter of fac the amount of property involved is quite small

This matter was brought before th immissioners in September of 1913 when it was suggested that I put beore them a proposition. This I did by greeing to furnish to the city for fifteen hundred dollars information re lating to the property belonging to it or to take a contract upon a fifty per cent basis. Every one who has any knowledge of realty matter based upon fifty per cent of the sults. The same as that offered to th ilty for fifteen hundred dollars was the same as that offered to the old council for twenty-five hundred Personally I prefererd the cast consideration but the commissioners after going into the matter thorough and having before them knowledge what might be done, decided upon he contract basis.

I want to say right here prominent real estate man quoted in your article that if he knows how to make one hundred thousand dollars out of the contract in 12 months I wish to test his sincerity. I hereby agree to enter into an agreement to cenvey to the Pearl Eagan Home five thousand dollars worth of property if situation in the mine strike zone of he can demonstrate his ability to Belmont county does not justify the make good his statement, if he will agree to convey to the same home five I challenge him to reveal his identity and accept my proposition. I may be a knave but I scarcely thought I was foolish enough to o fer to the city for fifteen hundred dollars information that was worth ac-
